# NEW PALETTE

## *Now 3m Wide*

---

### PURPOSEFULLY REFINED, BEAUTIFULLY DESIGNED

Four Families proudly introduces St Lucia Roller Blind Sheer - refreshed and updated for today's interiors. Replacing the previous St Lucia and St Lucia Euro ranges, this new version offers an expanded, on-trend colour palette and a 3m width to suit modern spaces.

St Lucia Sheer combines optimal light control with a soft, elegant sheer aesthetic. It offers daytime privacy while maintaining clear outward views (privacy reverses on the brighter side of the window). Its carefully engineered 15-20% openness factor provides approximately 80% UV protection, making it the only roller sheer on the market with measurable openness performance. Designed to elevate interior spaces, St Lucia Sheer offers a refined, PVC free alternative to traditional PVC screen fabrics.

Contact your local Four Families representative to request samples or further information.

### CARE INSTRUCTIONS

*Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment.*

*Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.*
