FROM BOTTLES *to Beautiful*

PURPOSEFULLY REFINED, BEAUTIFULLY DESIGNED

A first in the blind industry, **Recraft** brings our commitment to the environment into all aspects of window furnishings.

Made from **60% recycled polyester** from post-consumer PET bottles, it has a beautifully textured weave that gives a **linen-like appearance**. The decorative looking blackout also comes with colour-matched coating, perfect for **back-rolling**.

Recraft has all the quality and performance characteristics you can trust from Four Families with the comfort of knowing you are making an eco conscious choice for your home.

Each square metre of Recraft uses **16 post-consumer PET bottles**. With rolls 3m wide, this equals **48 bottles per linear metre**, and for a full roll of **20 - 25m**, that's **960 to 1,200 bottles repurposed per roll**.

Recraft joins our high-quality, textured family of fabrics alongside Nishi, Antigua, and Tasman, expanding our range of beautiful, performance-driven window furnishings.

THE JOURNEY OF BOTTLE-TO-BLIND FABRIC

1. Post-consumer PET bottles are collected, sorted, and cleaned.

2. The recycled plastic is processed and broken down into small chips.

3. These chips are melted into liquid plastic, with colour added if required.

4. The liquid plastic is extruded and spun into fine recycled yarn.

5. The recycled polyester yarn is woven into the finished fabric.

COLLECTION NAME	<i>Recraft</i>
BRAND	<i>Four Families</i>
NUMBER OF COLOURS	<i>8</i>
FABRIC TYPE	<i>Blockout</i>
USAGE	<i>Blind Fabric</i>
COMPOSITION	<i>60% Recycled Polyester 40% Polyester with colour-matched blockout acrylic coating</i>
WIDTH	<i>300cm</i>
COLOURFASTNESS	<i>6</i>
THICKNESS	<i>0.76mm +/- 5%</i>
WEIGHT	<i>477gsm +/- 10%</i>
ROLL SIZE	<i>20 - 25m Rolls</i>
FLAMMABILITY	<i>Au/Nz 1530.3</i>
COMPLIANCE	<i>Complies with BCA requirements for Class 2-9(a) buildings.</i>

THE NUMBERS BEHIND RECRAFT

*This graphic shows how many post-consumer PET bottles are repurposed at different fabric lengths.
(based on 3m wide fabric rolls).*

- PET bottles repurposed per linear metre of Recraft fabric (**48 bottles**).
- PET bottles repurposed in a 20m roll of Recraft fabric (**960 bottles**).
- PET bottles repurposed in a 25m roll of Recraft fabric (**1,200 bottles**).

THE FIRST

of its kind.

PREMIUM PERFORMANCE, SUSTAINABLE CHOICE.

Recraft is the first blind fabric in the Australian and New Zealand market to integrate a significant level of post-consumer recycled polyester into its core construction. With 60% of its fibres made from recycled PET bottles, this fabric turns waste into quality you can see and feel. Choosing Recraft means reducing landfill, supporting circular design, and bringing a new level of environmental responsibility to your home, without compromising the performance, texture, or refined aesthetic you expect from Four Families.

CARE INSTRUCTIONS

Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment.

Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.
