

# JAZZ

Flat fabrics can make modern spaces feel cold and dull, but a loud pattern isn't always the answer either. Jazz hits the perfect pitch and bridges that gap. It's a premium polyester-linen blend woven with chunky bouclé yarns, giving windows a rich, tactile surface that catches the light, bringing instant warmth and ambiance to the space.

It drapes with a beautifully weighted, natural fall and comes in 12 beautiful colourways, covering everything from foundational studio neutrals to deeper, trend-focused tones.
